

WHAT WE NEED IS WHAT YOU NEED:

We are looking for quality Owner/Operators to join our team at Paul Brandt Trucking Ltd. We treat our Drivers and Owner/Operators like family - using names, not numbers - and we realize the importance of home time as well as the need to make consistent miles. We do our best to fit these priorities to the needs of each individual operator.

WHAT WE PAY AND WHERE WE GO:

A single Owner/Operator can expect to earn a gross income of between \$200,000.00 & \$250,000.00 per year and teams can do even better. We are also offering a \$1000.00 Signing bonus for new Owner/Operators.

Most of our trailer loads are dropped at our yard in Morris, MB. We have US loads coming from/heading to: CA, TX, NC, SC, MI, IN, IL, WI and MN (to name a few), and our main routes in Canada include: MB, SK, AB and some BC.

Extra drops/picks? Paid. Layovers? Paid. Tolls & Scales? Paid.

OUR EQUIPMENT:

Our 53' reefer trailers are all 2009 or newer, and we also pull 53' dry van trailers. We also offer our Owner/Operators a reduced shop rate. You'd be hard pressed to find better rates somewhere else!

WHAT TO EXPECT @ PAUL BRANDT TRUCKING LTD:

Paul Brandt Trucking Ltd. has been in this business for over 40 years. The three brothers who own the company are all involved in day to day operations, and everyone you deal with at our terminal is always approachable. You will find yourself spending very little of your valuable time on the road having to deal with layovers, waiting time, or log book resets. We work hard to make sure you get to do more of what you love: DRIVING!!!

We recognize our Drivers to be the best representatives of our company and often receive compliments on our professionalism. We have always had a very high Driver retention record, which is evidenced by the number of million milers we dispatch.

We have 9 active Owner/Operators and Drivers with one million miles driven while under our banner, 3 with two million miles, and still another 3 with three million miles+. We also have one of the best safety records in North America when compared to other companies of similar size.
